All available modules are displayed in this guide. Modules enabled for you will depend on your user access assigned by your Company's Online Banking Administrator.

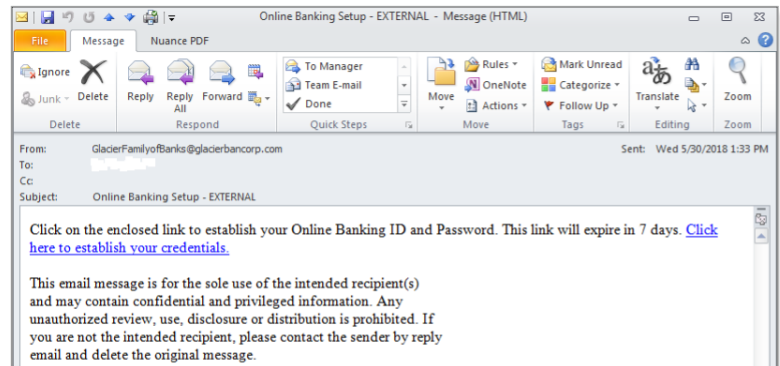

Set Login Credentials

The Company Online Banking Administrator will send you an email when your user profile has been established.

Step 1

Select the enrollment link within the bank's setup email.

- The **Activate Account** screen appears.

Step 2

Create your Online Banking ID and password, confirm your password, and then click **Continue**.

Review the Terms and Conditions.

Click **I agree**, and then click **Accept** to proceed.

A web form titled "Activate Account". It says "To access your accounts, please establish your ID and Password". Below this is the heading "Create your new Online Banking credentials". There are three input fields: "Online Banking ID", "Online Banking Password", and "Confirm Online Banking Password". A green "Continue" button is at the bottom right.

Step 3

Select a watermark image, and then click **Submit**.

- This image appears at all future logons and on all pages in Online Banking.

Click **Continue** on the **Security Features** screen.

A web form titled "Please verify your personal image". It explains that for security, the user must verify their image. It shows a "Current Image" of a tree and a grid of six other images to choose from. Below the grid are buttons: "<<< Prev", "Next >>>", "Cancel", and a green "Submit" button.

Step 4

Select a question from each drop-down field, and then input an answer.

A web form titled "Verification Questions (required)". It states: "From now on we will monitor your use pattern and if we suspect it is not you logging in we will ask you to answer a few verification questions. Please take a moment to select one question from each of the three drop-down menus. Answers are not case sensitive." There are three questions: "Question One: What is your spouse's middle name?" with answer "Jane"; "Question Two: What was the name of your first pet?" with answer "Buddy"; and "Question Three: Select Question..." with a dropdown menu showing various questions, one of which is selected. The answer field for the third question is empty.

Set Login Credentials

Step 5

Click **Submit**, and then click **Confirm** on the **Settings Modification** screen.

- If needed, edit the answer before clicking Confirm. Once you click Confirm, you cannot modify questions and answers.

Enter or verify the email address on file, and then click **Submit**.

Settings Modification (optional)

If you would like to change the verification information you previously selected, please do so. It is not required that you change your information.

Question One: What is your spouse's middle name?
Answer: Jane

Question Two: What was the name of your first pet?
Answer: Buddy

Question Three: In which city did you meet your spouse?
Answer: Anytown

Edit Confirm

Step 6

You may be required to register a Security Token. Indicate if you have received your physical token or downloaded your VIP Access virtual token.

Register your Security:

Have you received your Security Token?

Yes No

Step 7

Enter the **token Serial Number/Credential ID** and six-digit **Token/Credential Code**.

⚠ Note: For physical tokens, the serial number is on the back of the token.

Click **Submit**. A Success message appears.

Register your Security:

Secure Token Users: Please enter the alpha-numeric Serial Number located on the back of your Secure Token beginning with AVT. Enter the Token/Credential Code, by pressing the button on the face of the secure token. Virtual Token Users: Please enter the 12-digit alpha-numeric Credential ID located within the VIP Access app. Please do not include any spaces. Enter the Token/Credential Code (Security Code) presented on the VIP Access app.

Serial Number/Credential ID

Token/Credential Code

Submit Cancel

Step 8

On the face of the physical token or from the Symantec app, enter the six-digit **code**. Click **Submit**.

- You have now successfully set up your cash management credentials.

Secure Token Validation:

Enter the 6-digit security code from your Secure Credential.

Secure Token Token Code:

Submit Log Out

First Time Login

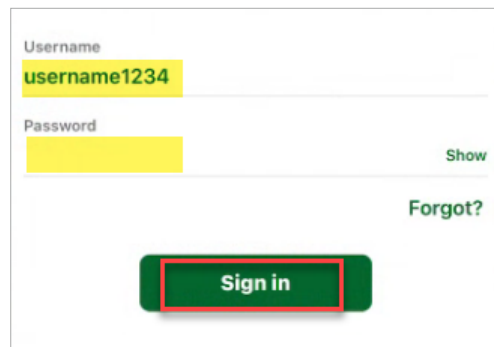

After setting your credentials, [click here to log in to Online Banking](#). You can also access Online Banking from the Login option on the Collegiate Peaks Bank home page.

Step 1

On the Login screen, enter the **Online Banking ID** you created as the Username. Click **Continue**.

Enter the **Online Banking Password** you created in the Password field. Click **Sign in**.

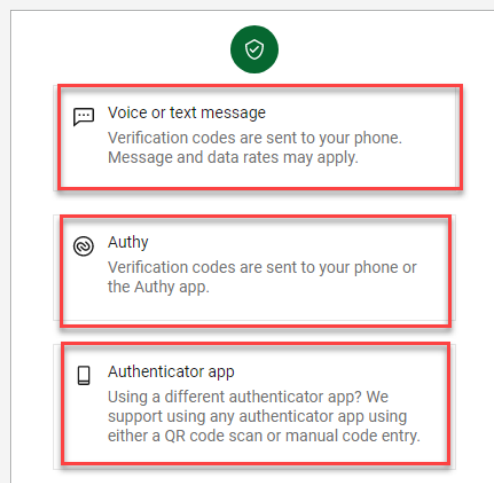

Click **Get started** on the next screen.

A screenshot of the login screen. It has two input fields: 'Username' with the text 'username1234' and 'Password' which is empty. To the right of the password field is a 'Show' link. Below the fields is a 'Forgot?' link. At the bottom is a green 'Sign in' button with a red border.

Step 2

Select whether to receive the authentication via **Voice or text message** to the phone number on file, the **Authy** app, or to a different **Authenticator app**.

- If Voice or text message was selected, enter the **phone number** that is on file with the bank. Click **Next**.
- Select whether to receive the code via **Text message/SMS** or **Phone call**. Click **Send code**.

A screenshot of the authentication method selection screen. It has a green shield icon at the top. Below it are three red-bordered boxes. The first box is titled 'Voice or text message' and says 'Verification codes are sent to your phone. Message and data rates may apply.' The second box is titled 'Authy' and says 'Verification codes are sent to your phone or the Authy app.' The third box is titled 'Authenticator app' and says 'Using a different authenticator app? We support using any authenticator app using either a QR code scan or manual code entry.'

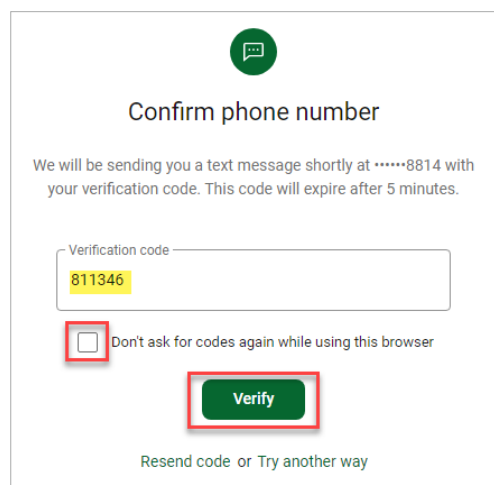

Step 3

Check the email or text and enter the **Verification Code**. Click **Verify**.

- Click **Resend code** or **Try another way** if needed.
- Click **Don't ask for codes again while using this browser** if you are using a trusted device.

Click **Done** to enter Online Banking.

⚠ Note: *If you clear your cache and cookies or didn't select the trusted device option, you will have to receive a verification code the next time you log in.*

A screenshot of the verification screen. It has a green speech bubble icon at the top. Below it is the title 'Confirm phone number'. The text says 'We will be sending you a text message shortly at *****8814 with your verification code. This code will expire after 5 minutes.' Below this is a 'Verification code' input field with the text '811346'. Below the input field is a checkbox labeled 'Don't ask for codes again while using this browser'. At the bottom is a green 'Verify' button with a red border. Below the button are the links 'Resend code' and 'Try another way'.

Accessing Cash Management

When you log into [Online Banking](#), you will be in our new online banking system. We have a helpful [Online Banking User Guide](#) to help you navigate the new system.

You will complete most of the basic online banking functions in the updated online banking system. These include viewing account and transaction information (balances, statements, stop payments, check order) along with making transfers between your accounts.

When you are ready to conduct your Bill Pay or other Cash Management transactions, click the **Cash management** option in the left pane of the new online banking system. This will take you into the prior system. All the functionality is the same as it was before.

When you are ready to switch back to the new online banking system, click the **Dashboard** button in the top row.

Options – Manage User Profile Settings in Cash Management

All available Profile Settings modules are discussed in this section. Modules enabled for you will depend on your user access assigned by your Company’s Online Banking Administrator. Click the tab to access the available options for each online banking module.

Account

Users with the Full or Partial Administrator permissions can change account names and the appearance order of the accounts.

A screenshot of the 'Account' settings form. At the top, there's a section 'Select an Account Type' with a dropdown menu currently showing 'Deposit Accounts'. Below this is a text instruction: 'Drag and drop the account to rearrange the display order. See [keyboard instructions](#)'. The form is divided into two columns. The left column is titled 'Account Pseudo Names' and contains two items: 'DEMO CHECKING' and 'DEMO SAVINGS', each with a small square icon to its left. The right column is titled 'New Account Pseudo Names' and contains two empty text input fields. At the bottom right of the form is a green 'Submit' button.

Display Defaults

Use the Display tab to establish permissions and set the amount of data that appears.

A screenshot of the 'Display Defaults' settings form. It contains a list of settings, each with a label and a set of radio buttons. The settings are: 'Accounts' (radio buttons for 5, 10, 20, 50, 100, All; 10 is selected), 'Transactions' (radio buttons for Since Last Statement, Last 7 days, Last 15 days, Last 30 days, All, Search History; Last 30 days is selected), 'ACH Batches' (radio buttons for 10, 20, 50, 100; 100 is selected), 'ACH Transactions' (radio buttons for 10, 20, 50, 100; 20 is selected), 'Wire Transfers' (radio buttons for 10, 20, 50, 100; 20 is selected), 'Wires-Edit/Add' (radio buttons for 10, 20, 50, 100; 50 is selected), 'Transfer History' (radio buttons for Last 7 days, Last 15 days, Last 30 days, Search History; Last 15 days is selected), 'ACH History' (radio buttons for Last 7 days, Last 15 days, Last 30 days, Search History; Last 15 days is selected), 'Wires History' (radio buttons for Last 7 days, Last 15 days, Last 30 days, Search History; Last 15 days is selected), 'Download Lines' (radio buttons for One Line, Two Lines, Three Lines, All Lines; All Lines is selected), and 'Transfer Confirmation' (radio buttons for Yes, No; Yes is selected). A green 'Submit' button is located at the bottom center of the form.

Options – Manage User Profile Settings in Cash Management

Alerts

Current Event Alerts – Set up the items or watches that trigger alerts. Select event alerts to be sent to Cash Management and other online users when specific transactions, such as wire transmissions, ACH EDI transactions, and ACH batches are initiated through online banking.

| Current Event Alerts ? | | Edit Event Alerts |
|-----------------------------------|------------------|-----------------------------------|
| When the following Occurs: | Alert Me: | |

ACH

The ACH module allows you to pay or collect money from individuals or companies. For example, you could send a payroll file or collect monthly dues from individuals using ACH. There are two ways to originate an ACH transaction: ACH Batch or NACHA File Upload.

The following terms are used for Cash Management ACH transactions:

- **ACH Batch** – A “template” that contains one or more account information records for the Recipient for a specific purpose (i.e., payroll or collections). Using a batch allows for quick entry of the transaction amounts since the account information is already entered.
- **Company** – A Company that you are authorized to initiate ACH transactions for. The Company Name will display in the ACH transaction.
- **Credit** – A transaction that is paying/sending money to a Recipient.
- **Debit** – A transaction that is collecting/receiving money from a Recipient.
- **Effective Date** – The date the entry will be posted.
- **Entitlement** – Access rights granted to cash users.
- **Full ACH Control** – Full ACH Control allows you to create/upload and initiate an ACH batch without requiring dual control.
- **NACHA File** – A file that is produced from your accounting software and contains the Recipient's account information and the amount of the transaction. This file is formatted to the NACHA standards and allows for quick upload to our Cash Management system.
- **Prenote** – A zero-dollar test transaction sent to validate bank account information.
- **Recipient** – The individual or business whom you are sending money to (crediting) or receiving money from (debiting).
- **Record** – The account information for the Recipient including account number, routing/ABA number, type of transaction, etc.
- **Single Entry Transaction** – A single Recipient's account information is entered and originated.
- **Transaction** – The credit or debit entry that will post to the Recipient's account.

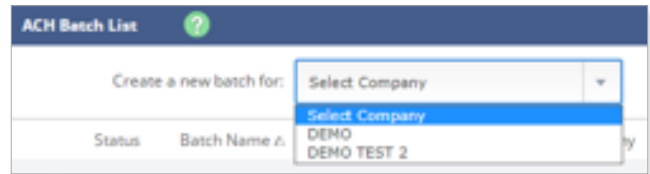

ACH

Create an ACH Batch

You create an ACH batch by entering the Recipient's account information into the batch. Once the batch is created, you can click on the batch, enter the transaction amounts, and submit the batch, saving time by not having to enter the account information again.

Step 1

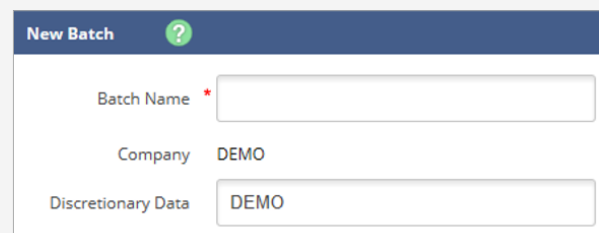

Click **Cash Management > ACH** tab > **ACH** tab again.
Select the Company to originate from in the drop-down **Create a new batch for** field.

Step 2

Complete the following fields:

- **Batch Name** – Enter the ACH batch name. This value distinguishes the batch the Cash Management user's benefit when viewing batches on the ACH Batch List screen.
- **Company** – The ACH Company for which the ACH batch is being created. This value prefills based on the Company selected on the first screen.
- **Discretionary Data** – Enter the purpose of the ACH batch.

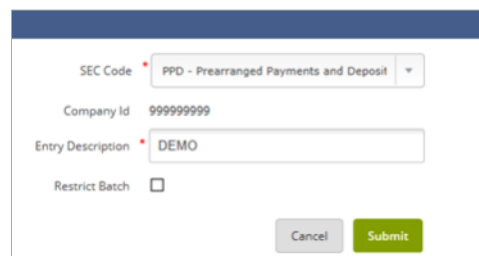

Step 3

Complete the following fields:

- **SEC Code** – Available options are listed in the drop-down.
 - ▲ **Note:** Each batch can only contain one type of SEC Code.
 - o **PPD** – Use for individuals such as payroll or dues
 - o **CCD** – Use for businesses such as making/collecting payments
- **Company ID** – This value prefills based on the associated value indicated in the bank's system.
- **Entry Description** – Enter the purpose of the ACH batch which appears to the recipient. (i.e., Payroll or Collections)
- **Restrict Batch** – Check this box to prevent Cash Management users without restricted batch access from viewing/working with the batch.

Click **Submit**.

ACH

Step 4

Complete the following fields on the **Record Information** screen to add a single record to the batch. Fields with an asterisk (*) are required.

▲ Note: *If you don't have the designated offset accounts in your company setup with the Bank, you may need to add a record in the batch with your company bank account to balance the debits and credits in the batch.*

- **Name*** – Enter the recipient of the transaction.
- **Addenda Type** – Additional information (Addenda) can be sent with the transaction. If you are sending addenda information with the transaction, select the type for the additional addenda information to be transmitted with this transaction. This field is used only for PPD, CCD, or CTX SEC codes as indicated when the batch was created.
- **ID Number** – Enter the recipient identification number (alphanumeric), if applicable (i.e., employee number).
- **Addenda** – Enter the additional information (Addenda) to be transmitted with this transaction. Only to be used for PPD, CCD, or CTX SEC codes.
- **Amount*** – Enter the dollar amount of the transaction.
- **Prenote** – Click this check box to create a separate batch that contains a zero dollar, or test, transaction to verify the recipient's account information is correct.
- **Routing*** – Enter the receiving financial institution's routing/ABA number. Click **Search for ABA #** to search or verify the routing number.
- **Account Type** – Select the type of receiving account.
- **Account Number*** – Enter the recipient's account number.
- **Transaction Type** – Click whether the transaction is a Debit or Credit.
- **Status** – Choose one of the following:
 - o Click **Hold** to prevent the transaction from being included within the batch totals. Holding this transaction allows you to initiate the batch without including the transaction, if needed.
 - o Click **Active** to include the transaction in the batch.

ACH

ACH Batch List

The **ACH Batch List** is a listing of batches already created/uploaded in Online Banking. This is the main page from which you will conduct tasks related to ACH transactions. You can [Initiate](#), [Download](#), [Copy](#) or [Delete](#) a Batch from this page. Batches will remain in this list to be used as templates unless they are Deleted.

The following ACH **Statuses** are used:

- **Ready** – Batch can be edited. If the batch is in balance, it may also be initiated.
- **Uploaded** – Batch has been uploaded or imported from another software.
- **Initiated** – Batch has been sent to the bank for processing.
- **Processed** – Batch has been processed by the bank.

⚠ **Note:** *Batch cannot be edited once it is Processed.*

ACH

Upload a NACHA File

Most accounting software can create a NACHA formatted file for upload into Cash Management. The software is Uploaded into Cash Management and sent without manual entry.

Step 1

Click **Cash Management > ACH > Upload**.

Click **Browse** and locate the NACHA formatted file produced from your software.

Click **Upload**.

Uploaded ACH batch files are validated. Validation errors found within the uploaded ACH batch are displayed. Click **Show More** to expand the error details. Contact the bank for assistance with Upload errors.

ACH

Step 2

The **File Upload Status** screen is displayed. Click **Refresh List** after a minute or so and the status will change from **Queued** to **Uploaded** showing the Upload is completed successfully.

- If the status does not change to **Uploaded**, contact the bank for assistance.

| File Upload Status | | | | View 5 10 20 50 100 All | |
|-------------------------|--------|------|-----------------|-----------------------------------|--------|
| File Name | Format | Type | Related Account | Upload Date ▾ | Status |
| Casino Test File 2.txt | NACHA | ACH | N/A | 7/23/2018 12:07:03 PM | Queued |
| <div>Refresh List</div> | | | | | |

Step 3

The batch appears on the **ACH Batch List** screen when the status is **Uploaded**.

| ACH Batch List | | | | | | Total Batches |
|---|------------|------|---------|--------------|------------|---------------|
| Create a new batch for: <input type="text" value="Select Company"/> | | | | | | 6 |
| Status | Batch Name | Type | Company | Process Date | Debit | Credit |
| <input type="checkbox"/> Uploaded | 0000122 | PPD | XYZ | | \$1.00 | \$1.00 |
| <input type="checkbox"/> Uploaded | 0000125 | PPD | Tribe | | \$8,903.36 | \$8,903.36 |

Create a Prenote Transaction

A prenote transaction will send a zero-dollar test transaction to verify that the Recipient's account information is correct before sending the actual credit or debit transaction. The prenote is created by adding the transaction to the ACH batch that includes the main transaction. That transaction is flagged for a Prenote and the Cash Management system will create a separate batch containing the actual prenote record.

! Note: Cash Management does not allow zero-dollar transactions in a batch. It is recommended to list .01 in the amount field.

Step 1

Follow the steps outlined in the [Create a Batch](#) section if you do not have an existing batch.

On the **ACH Batch List**, find the ACH batch that contains the transaction from which you are initiating a prenote.

From the **Select Option** drop-down menu next to the batch, select **Edit**.

| Scheduled Date | |
|----------------|--|
| | Select option... ▼ |
| | Select option... ▼ |
| | <div> Select option... ▼ <div> Select option... View Download Edit Quick Edit Copy Import Delete Initiate Select option... ▼ </div> </div> |

Step 2

Click **Add Record** at the bottom of the batch.

| Amount | CR/DR | Held |
|--------|-------|---|
| \$1.00 | DR | Edit Delete |
| \$1.00 | CR | Edit Delete |
| | | Total Debits \$1.00 Total Credits \$1.00 |

ACH

Step 3

Complete the transaction information.

TIP: Since Cash Management does not allow zero-dollar transactions, enter a **dollar amount**. If the transaction amount is unknown, enter \$0.01.

Check the **Prenote** box.

Check the **Hold** box. When Hold is selected, the prenote transaction is not included in the batch and sent as a separate batch.

Select **Submit**.

Record Information:

Name *

Addenda Type

ID Number

Addenda

Amount *

Prenote ☒

Creates a separate \$0 record of this entry.

Receiving Financial Institution Information:

Routing *

Account Type

Account Number *

Transaction Type ☐ Debit ☒ Credit

Status ☐ Active ☒ Hold

The prenote transaction is added to the batch but is not included in the batch totals because the Hold Status box was checked. Cash Management will create a separate prenote batch with PNT in the batch name. This prenote batch is listed on the ACH Batch List screen.

⚠ Note: The PNT Prenote batch must be Initiated.

| ACH Batch List | | | | | | | | Total Batches 5 | View 10 20 50 100 |
|-----------------------------------|-------------|---|-----------------|--------------|--------|--------|------------------|-----------------|-------------------------|
| Create a new batch for: | | <input type="text" value="Select Company"/> | | | | | | | |
| Status | Batch Name | Type | Company | Process Date | Debit | Credit | | | |
| <input type="checkbox"/> Uploaded | 0000122 | PPD | XYZ Inc dba Gem | | \$1.00 | \$1.00 | Select option... | | |
| <input type="checkbox"/> Ready | CTX TESTING | CTX | DEMO | | \$0.01 | \$0.01 | Select option... | | |
| <input type="checkbox"/> Ready | Payroll | PPD | DEMO | 06/13/2018 | \$0.01 | \$0.01 | Select option... | | |
| <input type="checkbox"/> Ready | PNT-Test | CCD | DEMO | | \$0.00 | \$0.00 | Select option... | | |

Initiate the prenote batch to send the prenote transaction to your financial institution. Once the prenote batch is successfully originated, you can update the transaction amount and remove the Hold status. That transaction is then a part of the regular batch, and the originated PNT batch can be deleted.

ACH

Quick Edit a Batch

Once a batch is established in the **ACH Batch List**, **Quick Edit** can be used to update the amounts for the full list of transactions within the batch. You can also mark transaction(s) to be **Held** if that recipient should not receive funds and be excluded from a particular processing period.

Step 1

From the **ACH Batch List**, locate the batch that needs amounts updated.

Select **Quick Edit** from the **Select Option** drop-down menu next to the batch.

Step 2

Update amounts as needed.

If any recipients should be excluded from receiving funds for the batch, select **Held**.

Click **Save**.

When the batch is ready, follow the [Initiate ACH Batch](#) steps.

Copy a Batch

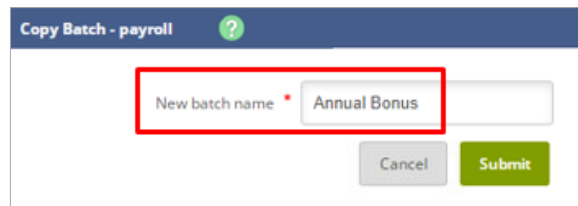

The copy feature allows you to copy existing batch information into a new batch. Copying a batch is useful if you are creating a batch and most of the batch information is in an existing batch. For example, if you were to give your employees a bonus, your employees are already set up in your payroll batch.

From the **ACH Batch List**, locate the batch to copy.

Select **Copy** from the **Select Option** drop-down menu next to the batch.

Enter a **New batch name**.

Click **Submit**. The new batch is now in the **ACH Batch List** to edit and then initiate.

Information Message: Batch payroll copied to Annual Bonus.

ACH Batch List

Create a new batch for:

Select Company

| <input type="checkbox"/> Ready | Annual Bonus | PPD | DEMO | | \$0.00 | \$0.01 |

Delete a Batch

Keep the ACH Batch List clean by deleting batches that are no longer used.

Note: Deleted batches cannot be recovered. If a batch is accidentally deleted, re-upload the NACHA file or manually re-enter the batch information.

From the **ACH Batch List**, locate the batch to copy.

To delete a single batch, select **Delete** from the **Select Option** drop-down menu next to the batch.

To delete multiple batches, check the box next to the batches and click **Delete Selected**.

Manage Tax Payments

Use the Tax Payment tab to create an electronic tax payment record. The tax payment record is included in the ACH Batch List for initiation. The Treasury accepts Treasury Tax and Loan (TT&L) payments electronically from users who are enrolled with the Treasury Department. Visit the EFTPS (Electronic Federal Tax Payment System) website eftps.gov to enroll.

Click the **Cash Management > Tax Payment** tab.

Complete the fields for the TT&L.

Click **Quick Add** to add another Tax Payment record.

Click **Submit** and [Initiate](#) the batch.

ACH Search Option

Use the Search tab to locate a transaction. Enter the necessary search criteria, and then select **Search**.

Step 1

Click the **Cash Management > Search** tab.
Enter the applicable fields on the **Search Records** screen.
Click **Search**.

A screenshot of the 'Search Records' form. It has a dark blue header with the title 'Search Records' and a help icon. The form contains several input fields: 'Name', 'ID Number', 'Batch', and 'Amount' (with a dollar sign prefix). Below these are two checkboxes: 'Prenote' and 'Held'. A green 'Search' button is located at the bottom right of the form.

Step 2

Once the search is complete, an information message telling how many results were found and the search results appears. You can edit records or delete batches from this screen.

Wire Transfers

The Wire module allows you to View, Transmit, Create, Edit, and Delete Wire Transfers. Available options are based on both your user entitlements and account-level wire permissions assigned.

Create wire instructions before sending wires. These instructions serve as a template that can be used once or multiple times. After creating a wire, you transmit the wire to your financial institution, which then sends out the wire. Wires can be sent out as single or repetitive wires.

- Single wires are only transmitted once. These wires can be transmitted on the current date or a future date.
- Recurring and/or repetitive wires are based on wire instructions that are used multiple times. A repetitive wire can be sent on the current date, a future date, or be set to transmit automatically at a specified frequency.

Wires List

The **Wires List** is a listing of wires already created in Online Banking. This is the main page from which you will conduct tasks related to Wire Transfers. Wire templates will remain in the list unless they are Deleted.

Wire Transfers are Submitted and then Transmitted to the bank for Processing. The following Wire Transfer Status are displayed on the **Wires List** screen.

Wires List

1

Transmit Selected

- **Ready** – Wire is ready to be Transmitted to the bank for processing.
- **Initiated** – Wire has been Transmitted and is awaiting processing by the bank.
- **Processed** – Wire was processed by the bank.
- **Approval** – The wire was Approved by the first user and needs to be Transmitted by the second user. This may be due to the wire amount and dual control settings set for the first approver.
- **Next Day** – Wire was Transmitted after the cut-off time set for outgoing wires.

Wire Transfers

Add Wire Instructions

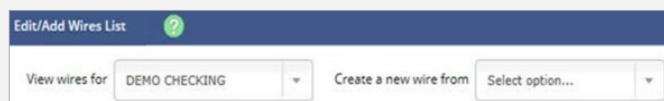

Wire Instructions are a template that contain account information for the wires Recipient. Recipients are the individual or business who will receive the wired funds. Wire Instructions can be used once or saved so that you are able to quickly Transmit the same wire again.

Step 1

Click the **Cash Management > Wires > Edit/Add** tab.

Select an account from the **View Wires For** drop-down. This is the account in which the money will be sent from.

Click **Create a new wire from**. Select an account to create a wire from.

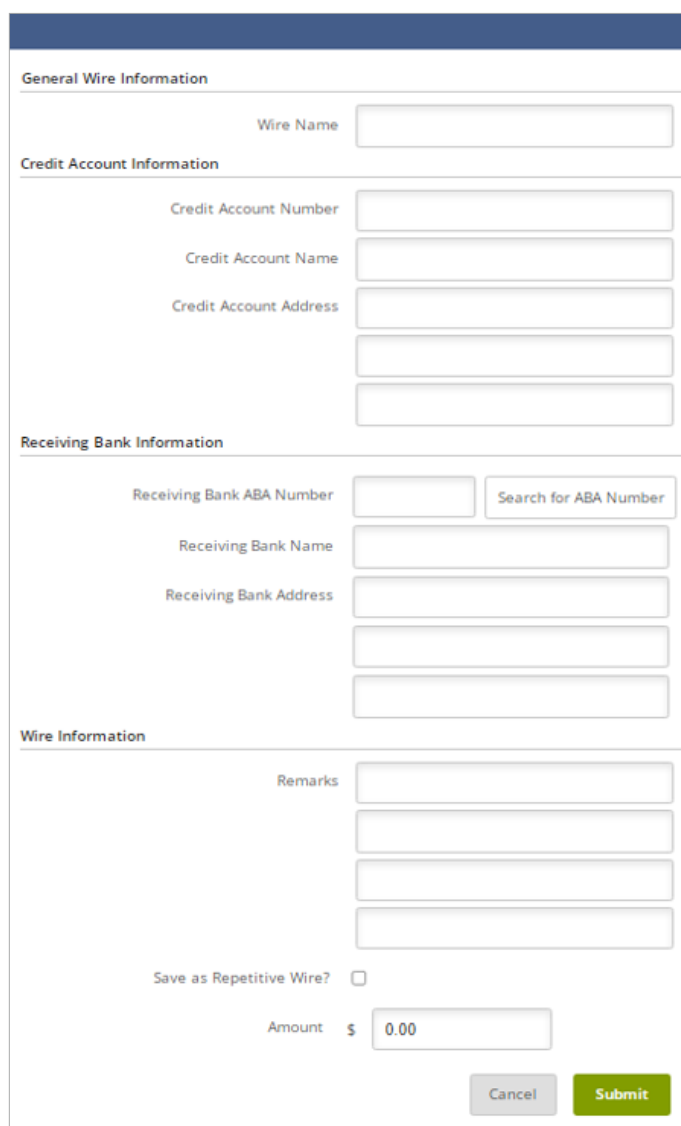

Step 2

Complete the appropriate fields for the Recipient (individual or business receiving the wire):

- **Wire Name** – Descriptive name for the wire. This value appears on the Wire List screen.
- **Credit Account Number** – Recipient's account #.
- **Credit Account Name** – Recipient's name.
- **Credit Account Address** – Recipient's address.
- **Receiving Bank ABA Number** – Routing number or ABA number of the Receiving financial institution. Click **Search for ABA Number** to search for a financial institution. Selecting an ABA from the search option populates all remaining **Receiving Bank Information** fields.
 - **Receiving Bank Name** – Name of the receiving financial institution.
 - **Receiving Bank Address** – Address of the receiving financial institution, including the city, state, and ZIP.
- **Remarks** – Special instructions for the wire. These remarks appear to the wire recipient.
- **Save As Repetitive Wire** – Check this box if the wire has instructions that may be used again. This box must be checked for Recurring wires. Leave this box un-checked for one-time (single) wires.
 - For example, if you send a wire to this individual/company once a month, you can use the template to quickly send the wire to the same Recipient and account number.
- **Amount** – US dollar amount of the wire.

Click **Submit**.

▲ **Note:** Clicking *Submit* only creates the wire instructions. To transmit this wire to the bank, refer to the [Transmit Wire](#) section.

Wire Transfers

Transmit Wire Transfer

Wire Transfer instructions can be set up as:

- **One-Time Single Wire** – Wire sent one-time to a Recipient.
- **Repetitive Wire** – Template used to send a wire multiple times to the same Recipient.
- **Recurring Wire** – Template used to send the same wire amount to the same Recipient.

Transmit One-Time Single Wire

Step 1

After creating the [Wire Instructions](#), click **Cash Management > Wires > Wires**.

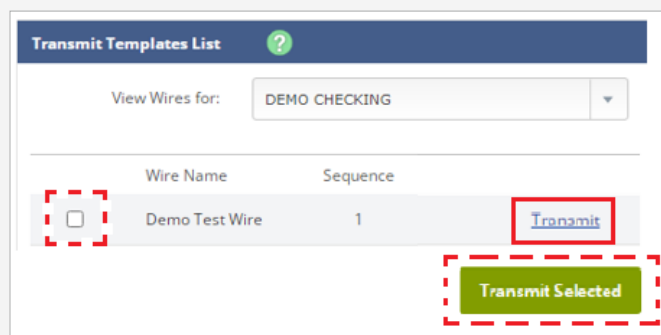

Step 2

Select the account in which the Wire Instructions were set up from the **Display Wires For** drop-down list.

Locate the wire in the **Wires List**.

Click **Transmit** to send the one-time single wire.

- To send multiple wires at once, check the box next to each wire and click **Transmit Selected**.

Step 3

Choose the **Effective Date** that the wire will post to the account. Future dated wires can be set up 14 days in advance of the Effective Date.

Enter your **Wire Password**.

Click **Transmit**.

A screenshot of the 'Date Information' form. It contains an 'Effective Date' field with the value '10/27/2022' and a calendar icon. Below it is a 'Wire Password' field. At the bottom, there are two buttons: 'Cancel' and 'Transmit'.

Wire Transfers

Transmit Repetitive Wire

Step 1

After creating the [Wire Instructions](#), click

Cash Management > Wires > Transmit Templates.

Select the account in which the Wire Instructions were set up from the **View Wires For** drop-down list.

Locate the wire in the **Transmit Templates List**.

Click **Transmit**.

- Check the box next to multiple wires and click **Transmit Selected** to send multiple wires at once.

| Wire Name | Sequence |
|--|----------|
| <input checked="" type="checkbox"/> Demo Test Wire | 1 |

Step 2

Choose the **Effective Date** that the wire will post to the account. Future dated wires can be set up 14 days in advance of the Effective Date.

Enter your **Wire Password**.

Click **Transmit**.

Effective Date: 10/27/2022

Wire Password: []

Cancel Transmit

Transmit Recurring Wire

▲ The Repetitive (Rep) flag must be set to "Y" in the [Wire Instructions](#) in order for the wire to be set up as a Recurring Wire.

Step 1

After creating the [Wire Instructions](#), click **Cash Management > Wires > Transmit Templates.**

Locate the wire in the **Wires List**.

Click **Transmit**.

Amount: \$1.00

Rep: Y

| Wire Name | Sequence |
|--|----------|
| <input checked="" type="checkbox"/> Demo Test Wire | 1 |

Step 2

Complete the **Recurring Information** section including:

- Effective Date
- Start Date
- Frequency
- Expiration Date

Check **Yes** for the **Retain template after scheduling**.

Enter your **Wire Password**.

Click **Transmit** or **Approve**.

| Wire Name | Sequence |
|--|----------|
| <input checked="" type="checkbox"/> Demo Test Wire | 1 |

Wire Transfers

Transmit Dual Control Wire

▲ Note: Dual control wires require two users to Approve and Transmit the wire

The wire may be **Approved** by the first user on any date prior to the Effective Date.

The wire **must** be **Transmitted** by the second user **on** the Effective Date, otherwise **the wire will not be transmitted to the bank for processing**.

- If the wire is a Recurring Wire, the second approver cannot Transmit the recurring wire until the day the wire is scheduled to process (Effective Date).

User1

Click **Cash Management > Wires**.

Select **Wires** for the **Wires List** for a single wire or **Transmit Templates** for repetitive wires.

Select the desired account from the **View Wires For** drop-down list.

Locate and select the desired wire, and then select **Transmit**.

Enter your **Wire Password**.

Click **Approve**.

*A message appears indicating the wire requires dual control. The wire will show the status as **Approval** until the second user transmits the wire.*

A dialog box with a light gray background. At the top, it says: 'This wire requires two-person authorization before it can be transmitted. Enter your Wire Password and select Approve to begin this process.' Below this text is a text input field labeled 'Wire Password'. At the bottom of the dialog are two buttons: 'Cancel' (gray) and 'Approve' (green).

User2

Click **Cash Management > Wires > Wires**.

Locate the Wire in the **Wires List**. The status will show as **Approval**.

Click **Transmit** or check the box next to the wire and click **Transmit Selected**.

A screenshot of the 'Wires List' table. The table has columns: 'Wire Name', 'Sequence', 'Status', and 'Amount'. There is one row with the following data: 'Demo Test Wire', '1499139', 'Approval', and '\$1.00'. The 'Status' column and the 'Transmit' button next to the row are highlighted with red boxes. A 'Transmit Selected' button is also visible at the bottom right of the table area.

| Wire Name | Sequence | Status | Amount |
|----------------|----------|----------|--------|
| Demo Test Wire | 1499139 | Approval | \$1.00 |

Review the details of the wire and enter your **Wire Password**.

Click **Transmit**.

▲ Note: Recurring wires do not appear in the Approval status and cannot be approved until the Effective Date they are scheduled to process.

A dialog box with a light gray background. It contains a text input field labeled 'Wire Password'. At the bottom are two buttons: 'Cancel' (gray) and 'Transmit' (green).

Manage Wires

You can **Edit** or **Delete** your Wire Instructions/Templates if they are in a **Ready** or **Active** status.

Edit Wire

▲ **Note:** Any wire with a **Ready** or **Active** status can be edited.

Click **Cash Management > Wires > Edit/Add**.

Select the account in which the Wire Instructions were set up from the **Display Wires For** drop-down list.

Click the **Single/Repetitive Wires** tab or the **Recurring/Future Dated Wires** tab, depending on how the Wire Instructions were set up.

Click **Edit** next to the wire.

Edit the Wire Instruction fields.

Click **Submit**.
